SUMMARY

Senior software engineer with 12 years of experience building payment and identity platforms for regional banks. Leads teams of up to 8 engineers and focuses on reliability, security and developer productivity.

EXPERIENCE

Principal Engineer, Lionrock Bank · Singapore · 2020 – present

- Led the rebuild of the card authorisation service, cutting p99 latency from 420 ms to 95 ms and reducing incidents by 60% year on year.
- Designed a tokenisation platform adopted by 14 product teams, removing raw card numbers from 30+ services ahead of a PCI DSS audit.
- Mentored 6 engineers, 3 of whom were promoted to senior roles within two years.

Senior Software Engineer, Straits Pay · Singapore · 2016 – 2020

- Built a real-time fraud rules engine processing 2,000 transactions per second, lowering chargebacks by 18%.
- Introduced contract testing across 12 services, halving integration defects found in staging.

Software Engineer, Mercu Systems · Kuala Lumpur · 2013 – 2016

- Delivered an internet banking module used by 400,000 customers across Malaysia.

EDUCATION

BEng Computer Engineering (Honours), Example Technological University, 2013
